#NATURE FOR ALL

2^o National Meeting on Social innovation and Environmental Leadership

Objective

Create a catalytic space of positive impacts on the communities where ecopil operates through the meeting and exchange of 16 youth groups, who will receive training and empowerment of their skills in entrepreneurship, leadership

and environmental education, in addition, activities will be carried out to improve the environment in Angel R. Cabada and the Port of Veracruz.

¿What will we do?

In the virtual sessions we will train in topics such as Agenda 2030, Action for Climate Empowerment (ACE), Nature Based Solutions (NBS), #NatureForAll and teaching environmental education workshops.

In the face-to-face sessions, we will improve the environment through forest maintenance, community empowerment of two plots for nature tourism, participatory action and water body cleanup.
